

Saurabh Pathak - FullStack Developer

Nallasopara(E), Mumbai

+919323673405 | saurabh.pathak52@gmail.com

SUMMARY

Enthusiastic Fullstack Developer proficient in HTML, CSS, JavaScript, and Node.js. Adept at crafting seamless user experiences and skilled in database management. Strong foundation in web frameworks and a passion for staying updated with emerging tech. Collaborative team player with a knack for innovative solutions. Eager to contribute expertise to dynamic projects and drive success.

SKILLS SET

- Core programming Languages: JavaScript, HTML5, CSS3.
- Databases : MongoDB.
- Technologies and Frameworks :React.js, Node.js, Express.js, JQuery, Socket.io ,Bootstrap, Tailwind.
- Source Control: Git.

WORK EXPERIENCE

FullStack Developer Intern at Bikswee solution

May'22 - August'22

- As an intern, I had the privilege of working on several significant projects that honed my skills in web development. I played a pivotal role in designing and implementing interactive dashboards, empowering users to visualize complex data effortlessly. Additionally, I contributed to the development of a dynamic website builder, showcasing my proficiency in both front-end and back-end technologies. These experiences not only enhanced my technical prowess but also refined my ability to collaborate effectively in a team-oriented environment.
- Collaborated on front-end and back-end tasks using HTML, CSS, JavaScript, Node.js, Express.js, and MongoDB.
- Integrated third-party APIs to extend application functionality.

Project

Auction

- Designed and developed a dynamic auction website using the MERN (MongoDB, Express.js, React.js, Node.js) stack. Integrated user authentication, real-time bidding, and payment processing for a seamless user experience.
- Optimized performance for fast loading times and conducted extensive testing for a bug-free platform.

E-Commerce

- Developed a dynamic e-commerce platform using the MERN (MongoDB, Express.js, React.js, Node.js) stack. Implemented user authentication, responsive UI, and a secure payment gateway.
- Utilized MongoDB for efficient data management. Optimized performance for seamless user experience. Conducted rigorous testing and debugging. Resulted in a fully functional, user-friendly e-commerce platform.

Real time Chat App

- Developed a real-time chat application website using the MERN (MongoDB, Express.js, React.js, Node.js) stack. Integrated user authentication, secure messaging, and real-time updates using Socket.io. Utilized MongoDB for efficient data management. Designed a responsive UI with React.js for seamless cross-device chat experience. Conducted thorough testing and debugging. Deployed on [Deployment Platforms]. Resulted in a secure and interactive platform for instant messaging.

ACADEMIC EXPERIENCE

Bachelor of Engineering (Computer Science) with CGPA - 8.0

HSC (Science) with aggregate 64.60 - Maharashtra

SSC with aggregate 79.30 - Maharashtra
